

Friendlyway-Series

The ideal solution, where all-round performance and modern design are required

- Elegant, super-slim design
- Keyboard
- 15" TFT-display for brilliant picture quality
- High-performance Pentium processor
- ISDN-card or analogue modem
- Audio system
- Options:
 - High transparency touch-screen
 - Barcode reader
 - Video system
 - Proximity sensor
 - Alternative keyboard versions
 - Alternative printer versions
 - Card reader
 - Payment function (cards/cash)

Combining the Friendlyway-Series with an optional barcode reader enables you to present your products interactively right at the Point of Sale. By simply holding the product in front of the optional barcode reader, your customer will receive all information about the product interactively and in multimedia form.

You can increase your revenue by allowing public access to your Internet products and services using the Friendlyway as a virtual outlet.

These are just two examples of the variety of applications for the Friendlyway Series. Whether you want to advise your customers about your products at the point of sale, present your complete e-commerce range using multimedia, provide information on forthcoming events, or welcome your guests in the lobby of your premises, the Friendlyway-Series with its wide range of options has the answer.

Customers throughout Europe including BMW, Ernst & Young, Microsoft, Nokia, Sixt and CeBIT have chosen the innovative, super slim Friendlyway kiosk because of its all-round performance in a variety of applications.
