

STANDALONE

The ideal solution for any representative setting where interactive functions are required

- Sleek, attractive design
- Free-standing units in 3 different versions
- Spray finish
- Aluminium/Steel enclosure
- High-quality 15" TFT display
- Options:
 - Stainless steel, brushed or polished surface finish
 - Complete acoustic system
 - Climate control

This modular enclosure system offers high flexibility in the accommodation of a wide range of system components. It is both a communicative centre and an eye-catching feature – ideal for any representative setting where interactive functions are required.

This STANDALONE kiosk is the smart solution for a wide range of applications including public information terminals, trade show displays, Hotel check in / check out terminals and corporate welcome applications – a professional combination of attractive, space-saving design and interactive information system for your reception area.

The STANDALONE kiosk is available in 3 different design versions:

- The **Basic** with straight front panel
- The **System** with angled front panel
- The **Design** with sleek pedestal

The STANDALONE kiosk consists of an aluminium enclosure with a 2mm front steel plate, which comes spray finished as a standard. You also can choose between stainless steel, brushed and polished surface as options for the Design version.

The optional acoustic system consists of two speakers with amplifier system, which is mounted on the front panel.
