

WEBPOINT Kiosk

The space-saving kiosk solution for wall-mounting applications

- Brushed metal enclosure
- Wall-mounted unit
- High-quality 12" LCD touch-screen
- Elastomeric qwerty keyboard
- Attractive design
- Options:
 - Coin acceptor
 - Magnetic card reader
 - 15" LCD touch-screen
 - Integral camera

The wall mounted Webpoint is a robust, unobtrusive terminal designed for providing access to the Internet through a series of communication mediums, or alternatively providing access to locally stored information.

The space saving, ergonomic design blends in with most environments and smart side-screens provide users with a degree of privacy.

For maximum ease of use the Webpoint comes with a 12" or 15" high quality touch screen together with a stylish keyboard.

To address all requirements the Webpoint also has a comprehensive range of optional extras available, including an integral camera, currency handling mechanisms and card readers.
